

CONVERGE IS GROWING!

Marcel Lemoine

CONVERGE MANAGEMENT

Since 2005, Marcel Lemoine and the team at Converge Management Services, LLC have been providing its construction contractor clients with innovative solutions to their finance, accounting, and operational challenges.

Converge has also worked on countless systems improvement and implementation projects over that time with a wide variety of software and reporting tools.

In 2014 Converge partnered with Viewpoint Trimble to bring our deep industry accounting and operations experience to existing and new users of their software products.

Pratyush Kumar

FUSIONSTAK

Pratyush Kumar has built FusionStak into an industry leading technology firm specializing in process automation, custom software development, data analytics, and IT Consulting.

Historically, FusionStak's key impacts have been in the Public Safety, State and Local Government, and Industrial Construction markets.

FusionStak's award-winning solutions have become nationally recognized tools in their industry.

In 2020, FusionStak and Converge Management Services partnered to launch a joint-venture company called **Converge Systems Group.**

Converge Systems Group is a combination of the deep talent and capabilities of the two groups that is laser focused on delivering the highest quality technology solutions to the construction industry.

KEY DEVELOPMENTAL PROJECTS

Viewpoint consulting and implementation services

- Our Viewpoint team includes accounting professionals, projects controls professionals, database experts, and reporting experts with years of practical hands-on experience in the industry.

In 2020 Converge partnered with Prophix Software to work with construction industry clients looking for a world class Corporate Performance Management (CPM) tool.

Prophix implementation services - Our Prophix team combines deep construction industry financial reporting experience with deep SQL database experience to deliver a comprehensive solution to Prophix users in order to extract the most from this powerful CPM tool.

Power BI - Analytics platform

- Our Analytics team has developed a series of Power BI visualizations specific to Viewpoint users based on the needs of our clients. All delivered through our web based portal for ease of access and speed of implementation.

Custom application development

- Our development team has been engaged on numerous custom application and custom integration projects designed to connect your information systems and greatly enhance the efficiency of your operations.
